

THP SHOOT INFORMATION PACK

Why is the shoot held outdoors?

Children need fun and space. That's why I like to shoot at your home, garden and at your local park. Getting outside allows children (and adults) to relax and be themselves.

In your surroundings, I will find interesting backgrounds and local colour, which always makes for exciting, dynamic portraits. Most children, as they grow to adulthood, look back with fondness on their old surroundings, so it's great to get a record of them.

I like to focus how families feel: happy, joyous, excited, playful, curious or thoughtful, and to capture their spontaneity and true character.

How long does a shoot take?

A typical shoot will take two hours. If you choose a day's shoot where I come on a day trip with you – to the beach, countryside, a family day out – this will be a six-hour shoot.

How much is the shoot session?

Baby & Children Lifestyle shoot

At your home and local park

£120

Big Adventure shoot

Book us for a whole day – let's take the family to the beach, the countryside, or other great adventure. If you are looking to do an album then this is perfect shoot choice.

£250

What to wear?

Please bring 2 changes of clothes. Avoid patterns. Bright vibrant colours are good. New outfits provide variety to the shots and I can style colour to the backgrounds, just like a fashion shoot. But wear what you all feel comfortable in.

If the weather is bad...

Photographers like soft light – that's why cloud cover is ideal. Sunny days (with direct sunlight) can be a challenge (though we solve that by shooting in shade). But if it's driving rain, then let's discuss and rearrange.

How will we see the photographs?

After the shoot we will work to select the 100 best images and professionally edit them in both colour and black and white.

The viewing takes place at your home, normally in the evening, two weeks after the shoot. There you can relax together and relive the day together and select the images you like best.

How long does a viewing take?

Your viewing could take up to 3 hours. You'll see your images to best effect on a large screen with a projector and get the best advice. And you can take as long as you want to see all the images. It's useful to have ideas of how you would like to see the images on the wall, or as an album (see my website products page).

How much are your frames and albums?

Frames	From £150
Albums	From £800
Multiframes	From £285

Tim Hollis Photography offers expert design advice and a superb range of products to present your images in your home (please take a look page on the website).

Please don't hesitate to get in touch on **07774 6647672**, if you have any questions. We're here to help. See you at your shoot!
